### *Forward-Looking Statements*

*This Presentation contains “forward-looking statements” within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as: “anticipate,” “plan,” “believe,” “estimate,” “expect,” “strategy,” “should,” “will,” “seek,” “forecast,” and similar references to future periods. Examples of forward-looking statements include, among others, statements concerning the Company’s business outlook, future economic performance, anticipated profitability, revenues, expenses, or other financial items, market share, market growth rates, market demand, product or services growth. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are estimates that reflect the best judgment of TV Azteca’s management based on currently available information. Because forward-looking statements relate to the future, they involve a number of risks, uncertainties and other factors that are outside of its control and could cause actual results to differ materially from those stated in such statements. Therefore, you should not rely on any of these forward- looking statements.*

*All forward-looking statements are based on information available to TV Azteca on the date of this Presentation and TV Azteca assumes no obligation to update such statements, whether as a result of new information, future developments or otherwise, except as required by law.*

- More than 100,000 direct employees
